Timothée Campos

Full Stack Software Engineer - Frontend & Backend

São Paulo, Brazil · timothee.campos@icloud.com · linkedin.com/in/thempos · **Person with Disability (PwD) - Autism Spectrum Disorder (ICD 6A02.0)**

PROFESSIONAL SUMMARY

Full Stack Software Engineer with solid experience in frontend and backend development, cloud infrastructure and observability. At Itaú Unibanco since 2024, I have worked in data analysis, in engineering for a health platform at scale (90,000 employees) and, currently, in the strategic decommissioning of the Banking as a Service (BaaS) platform. Broad technical profile, from user interfaces to data pipelines and Terraform, with a strong sense of risk, operational efficiency and business impact. Autistic (ASD - ICD 6A02.0), eligible for disability (PwD) hiring programs, I bring analytical precision, deep focus and consistent delivery as strengths.

TECHNICAL SKILLS

Frontend	React, TypeScript, JavaScript, Kotlin (Android), CSS, HTML5, Accessibility (WCAG), UX Design
Backend	Java, Kotlin, Node.js, REST APIs, Microservices, Spring Boot
Cloud & Infra	AWS (Athena, S3, Lambda, ECS), Terraform, Docker, CI/CD, Datadog
Data	SQL, AWS Athena, SAS, Data Mesh, Data pipelines, Advanced Excel
Practices	Clean Code, SOLID, TDD, Observability, Security, Cost Optimization
Tools	Git, Jira, Confluence, Linux

PROFESSIONAL EXPERIENCE

Itaú Unibanco

Software Engineer - Banking as a Service (BaaS)

Jun 2026 – Present | São Paulo, Brazil

- Working on the strategic decommissioning of the BaaS platform, ensuring a safe and structured shutdown of banking services integrated with partners.
- Assessing dependencies and technical/operational risks to retire components with no impact on business continuity.
- Removing and simplifying cloud resources (AWS), reducing legacy infrastructure and operating costs.
- Stack: Java, Kotlin, Docker, AWS, Terraform and Datadog - covering development, infrastructure and observability.
- Moved from a different area to contribute at a critical moment in the business lifecycle, broadening my experience across contexts within the bank.

Itaú Unibanco

Full Stack Software Engineer - People & Health

Nov 2025 – Jun 2026 | São Paulo, Brazil

- Built and evolved the Periodic Health Assessment platform, used by more than 90,000 employees, with a focus on accessibility, UX and reliability.
- Built AWS integrations and data pipelines on a Data Mesh architecture to process health data at scale.
- Reached 100% on the squad's Reliability, Performance Efficiency and Cost Optimization indicators; 98% on Operational Excellence and 93% on Security.
- Worked end to end: data modeling, frontend, backend, infrastructure and deployment automation.
- Collaborated with occupational physicians, psychologists and nurses, building strong communication between technical and business teams.
- Presented the Integral Health squad's results to Itaú's entire People community in the bank's auditorium.

Itaú Unibanco

Investment Analysis Intern - íon

Aug 2024 – Nov 2025 | São Paulo, Brazil

- Analyzed the performance of investment specialists and portfolio diversification strategies, producing insights for business decisions.
- Contributed to a strategic project with over R$ 2 million in savings for the bank.
- Built reports and dashboards with Excel, AWS Athena and SAS to track key indicators.
- Prepared executive presentations to communicate results to stakeholders.

EDUCATION

FAAP - Fundação Armando Álvares Penteado
Graduate Certificate in Artificial Intelligence Applied to Business
Aug 2026 – Feb 2027 | In progress

FIAP
Bachelor of Computer Science
Feb 2026 – Dec 2029 | On hold

Fatec - São Paulo State Technology College
Associate Degree in Multiplatform Software Development
Jan 2023 – Dec 2025 | Completed

ACHIEVEMENTS & CERTIFICATIONS

Harvard Aspire Leaders Program (Cohort 2025)
9-week leadership program with workshops and interactive classes for developing young talent.

MIT Hackathon Medicine 2025
Selected to take part in the MIT Hackathon Medicine at Faculdade Albert Einstein, working on a project about MASH (metabolic dysfunction-associated steatohepatitis).

Brazilian Supreme Federal Court (STF) - AI Applied to Law
Certification on the impact of artificial intelligence on the legal field, its practical applications and ethical implications.

Introduction to Data Science - Cisco
Fundamentals of data science, data analysis and data engineering with a focus on machine learning.

Foundations of UX Design - Google
User-centered design, accessibility and design thinking.

Outstanding Student - Frontend, Mobile and Portuguese/Writing
Academic recognition for excellence in frontend development, mobile programming with Kotlin and written communication.

Manager Feedback - íon (Itaú)
"Becomes a reference on subjects, even those outside their area of expertise, and supports the rest of the team in knowledge management."
